TRUSTED WORLDWIDE

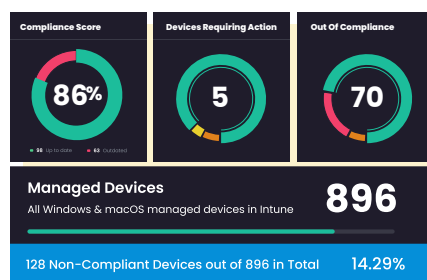

What Enterprise Premium Adds

1 UNDERSTAND COMPLIANCE & RISK

Know exactly what needs attention before it becomes tomorrow's incident.

Advanced Insights & Compliance Reporting

- Application and update compliance
- Visibility across Intune and ConfigMgr
- See where attention is needed

CVE & Threat Visibility (Threat Analytics for ConfigMgr)

Threat Visibility	CVE Count	Affected Apps	Affected Devices
Critical	156	48	1,089
High	662	132	4,687
Medium	1,284	213	8,945
Low	356	78	1,106

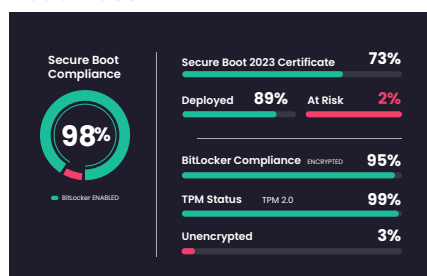

All Windows & macOS managed devices in Intune

- CVE severity scores
- Affected applications and devices
- See what needs attention

2 UNDERSTAND DEVICE HEALTH & SECURITY POSTURE

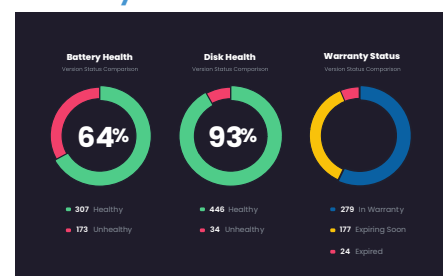

Spot issues before users notice them.

Secure Boot & Encryption Readiness

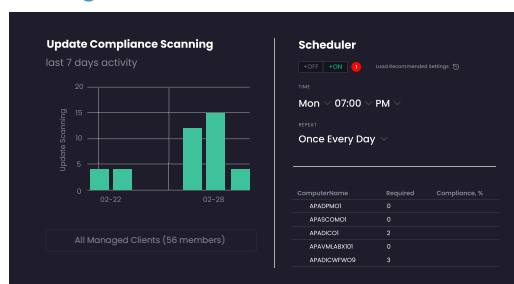

- Secure Boot status
- BitLocker compliance status
- TPM version and status

Hardware Health and Inventory

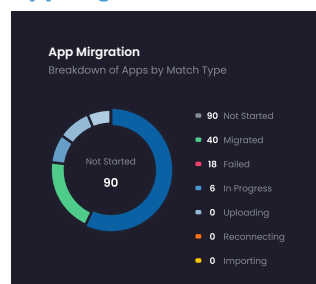

- Battery and disk health
- Warranty status
- Hardware and software inventory

3 ConfigMgr Actions & Log Collection

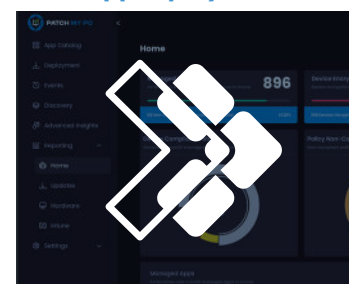

- Investigate faster
- Collect remote logs
- Trigger available client actions

ConfigMgr to Intune App Migration

- Assess migration readiness
- Migrate supported applications
- Move applications into Intune

Commercial Support for PSAppDeployToolkit

- Enterprise level support for the open source PSADT
- Backed by deep technical expertise
